

Takeda Science Foundation (Osaka January 20-25, 2020)

The Takeda Science Foundation is very pleased to inform a symposium titled “Mental Illness: Human Biology and Preclinical Modeling for Translation”.

The symposium is organized by Professor Shu Narumiya of Kyoto University, Professor Shigenobu Kanba of Kyusyu University, Professor Akira Sawa of Johns Hopkins University and Professor Tomoyuki Furuyashiki of Kobe University and is held at the Center for Learning and Innovation (CLI), Takeda Pharmaceutical Co., Ltd. in Osaka, Japan from January 24 to 25, 2020 as the Foundation’s Tenth Symposium on PharmaSciences.

<http://www.takeda-pharma.jp/en/>

The aim of this symposium is to get together world top level scientists in this area, see the most advanced science discussions near by, and stimulate each other among the experts and young scientists. The official language of the symposium is English. Registration is free and accommodation is prepared at CLI, including meals and beverages without charge for three nights, from the evening of January 23 to the morning of January 26, 2020. Participants should cover only their own transportation expenses. We usually have more than three hundreds of participants and almost one thirds are from overseas.

The symposium’s Secretariat also invite the oversea researchers for the poster presentation of their studies related to this symposium title. Excellent Posters will get award (500,000JPY×5 winners).

Application for poster presentation and registration can be made through our Symposium website linked above by September 30 and October 31, 2019, respectively.

See the website for more details.
