## Program Highlights

### Plenary Lectures:

**Guy Goodwin:** Can We Re-Medicalise the Psychedelic Experience

**Sarah Medland:** What have we learned from 15 years of collaborative neuroimaging research in the ENIGMA consortium

**Paul Kenny:** Cellular mechanisms of nicotine craving

**Susan Shur-Fen Gau:** Characterizing Attention-deficits Hyperactivity Disorder: Insights from Neurocognition, Imaging, Pharmacotherapy, and the Gut-Brain Axis

**Patrick McGorry:** The Global youth mental health crisis: megatrends and solutions

### Meet the Experts:

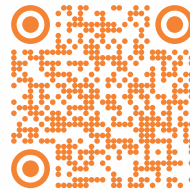

These highly interactive sessions offer the opportunity to discuss your own cases with acknowledged international specialists. The selection of topics and experts includes:

- OCD – **Joseph Zohar, Zhen Wang & Vlasios Brakoulias**
- PTSD – **Eric Vermetten, Isaac Galatzer-Levy & Meaghan O'Donnel**
- Mood Disorders – **Allan Young, Michael Berk & Philip Mitchell**
- Schizophrenia – **Dan Siskind & Andy Thompson**

### Spotlight Sessions:

This year, we will be delighted to host Spotlight sessions organized by our affiliated societies from Taiwan, Japan, Germany, Austria, and the Philippines, as well as sessions organized around a specific topic, such as ADHD, Alzheimer's Disease, or Cannabis & Mental Health.
